The Leadership Difference

If you are looking for a holistic, biblically-based approach to leadership, we recommend starting with this book. Intensely practical, *The Leadership Difference* provides pastors and other Christian leaders with the essential skills and foundations necessary for practicing effective leadership.

Leadership Skills Guides

Use these guides to train leaders. This comprehensive set of leadership skills guides covers 37 essential leadership skills. Each guide includes a written introduction, teaching points, scripture passages and reflection, and discussion questions—everything you need to train and develop leaders in hands-on, relational ways.

Storyboards and Coaching Guides

Storyboards are a powerful framework that you can use to create opportunities for discussion, insight, and action in 1:1 and small group settings. Companion coaching guides offer key questions for each section of the storyboard and a suggested path to help you direct the conversation in a meaningful way to produce value-driven results. The **Leadership Multiplication Pathway Storyboard** is an overview for a series of four, designed to give existing leadership a systematic development process to produce more and better leaders in their local setting. In a repeatable process that can multiply leaders, each of the four stages is fleshed out in the series of visual storyboards, each with an accompanying coaching guide on the following topics:

- **Character: Missional Discipleship**
- **Calling: Focused Ministry**
- **Competency: Effective Leadership**
- **Culture: Continuous Multiplication**
